

Second Annual Platform Meeting

We recently held the second annual Alinea Platform Meeting in Hoedspruit, South Africa.

Platform meetings enable partners within the Alinea Regional Network to come together, connect and learn in a collaborative environment.

The Alinea network now boasts nine conservation partners across multiple landscapes in Central and Southern Africa.

This year's theme was "Pivot Points" – key moments for adaptation and change. The meeting catalysed discussions and learning opportunities vital for organisations facing complex issues in an ever changing world.

Guest speakers included Julian Rademeyer from the Global Initiative Against Transnational Organized Crime, organisational and security consultant Fiachra Kearney and financial investigations expert Neil Bennet.

As the Alinea Network grows we are inspired by these words:

"There is no power for change greater than a community."

Margaret J. Wheatley
